

Sprint Review Checklist

Project Name	SARAPP	Project ID (if applicable)	SARAPP
Reviewer's Name	Angelika Galang, Troy Valdez, Rich Yap	Sprint No.	3
Review Date	03/09/18		

This checklist is to be used to assess if sprint goals have been achieved during the sprint. Particularly, if the target features of the software have been built based on user acceptance criteria.

Functional Goals:

User Acceptance Criteria	Compliance		Remarks	Estimated Value
	Yes	No		
UC-2.0-S1: User Rates a Food Store	✓		User should now be able to rate a food store	34
TOTAL				
Team Velocity (Add all values of UAC that have been complied)				110

Tester's Comments: The user's rating is added to the database and the UI reflects the changes such as the overall rating of the food store right away. The user can also immediately see the rating he/she submitted together with others'.

Usability Goals:

If interfaces will be delivered at the end of the sprint, evaluate the system according to Nielsen's Usability Heuristics. For items that are not applicable, check **NA**.

Nielsen's Usability Heuristics	Strongly Disagree					Strongly Agree	NA
	1	2	3	4	5		
Simple and Natural Dialogue					✓		
Speaks the Users' Language				✓			
Minimize User Memory Load			✓				
Consistency				✓			
Feedback			✓				
Clearly Marked Exits					✓		
Shortcuts							✓
Good Error Messages					✓		
Prevent Errors				✓			
Help and Documentation			✓				

Reviewer's Comments:

Exit/back button is now clearly marked, and the app shows helpful messages (e.g. error when inputting incomplete rating information, successfully adding a rating, etc.). The UI especially in adding a rating is nice and well-designed.
