Sprint Review Checklist

Project Name	SARAPP	Project ID (if applicable)	SARAPP
Reviewer's Name	Richelle Yap	Sprint No.	2
Review Date	2/23/18		

This checklist is to be used to assess if sprint goals have been achieved during the sprint. Particularly, if the target features of the software have been built based on user acceptance criteria.

Functional Goals:

User Acceptance Criteria	Compliance		Remarks	Estimated Value
	Yes	No		
UC-2.0-S1: User Rates a Food Store		✓	User should now be able to rate a food store	34
UC-2.0-S2: User Rates a Food Store	✓		User shouldn't be able to rate a food store without completing the information necessary	21
TOTAL				21
Team Velocity (Add all values of UAC that have been complied)				21

Tester's Comments: The user's rating is added to the database; however, it cannot be properly viewed when viewing the food store profiles. The user needs to return from the home screen so that the change in food store average will be reflected.

Usability Goals:

If interfaces will be delivered at the end of the sprint, evaluate the system according to Nielsen's Usability Heuristics. For items that are not applicable, check **NA**.

Nielsen's Usability Heuristics	Strongly Disagree			Strongly Agree		NA
